Immediate Joiner | Ready to Relocate Anywhere | Open to Work

PROFESSIONAL SUMMARY

Experienced and detail-oriented Full Stack Developer with experience in creating engaging websites and enhancing user experiences. Proficient in the MERN stack and skilled in utilizing various front-end technologies and design tools to bring visions to life. Specializes in crafting visually stunning and functional web applications that resonate with audiences and drive results. Open to learn new skills and technologies.

EXPERIENCE

Developer | *October 2021 – September 2023*

Aptlogica Technologies Pvt. Ltd., Pune

Project: Cisco Skills For All

- Developed interactive courses within React.
- Created responsive interfaces and managed content and language translation through JSON.
- Maintained project version control using GitLab repository with GitHub desktop.
- Led the team in the absence of the team leader, ensuring project continuity and timely completion.

Project: HYSPEC Portfolio

- Created a portfolio website from scratch, using ReactJS for development, SCSS for design, and GSAP for animations.
- Crafted user-friendly, responsive layouts with seamless animations and transitions.
- Managed version control using Git and GitHub, ensuring efficient collaboration within the development team.
